

# Planning and scheduling **optimization**

Planning and scheduling is essential in many industries. Key challenges can transform to business-critical benefits when you get it right.

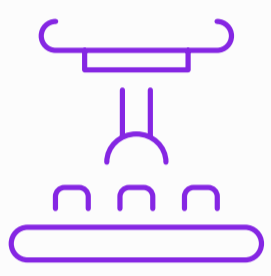

## Challenges with **Planning & scheduling**

Customer **dissatisfaction**, missed SLAs and penalties.

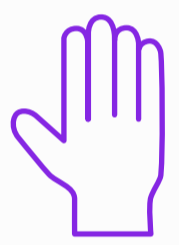

Unacceptable **safety and compliance risk**.

**Operational inefficiencies**, under-par technician productivity.

**Higher than necessary cost** & a high ratio of dispatchers to technicians.

Excessive unplanned downtime, **interruptions to production**.

## Benefits with **Planning & scheduling optimization**

Improve **operating margin and cash flow**.

**Maximize** employee productivity.

**Improve** customer satisfaction.

Maximize asset **utilization**.

Ensure **worker safety and regulatory compliance**.

Learn how planning and scheduling optimization can deliver significant business value in service, manufacturing, and asset-intensive industries.
