

Key reasons to choose Enterprise Resource Planning in IFS Cloud

An ERP solution that manages and consolidates all business operations, supporting growth whilst serving your customers effectively.

IFS Cloud is a class-leading ERP solution that streamlines your business, grows customer service levels and unlocks cost savings. Leverage deep industry and functional strength with intelligent and autonomous capabilities that can be put to work from day one.

Single solution beyond ERP

IFS Cloud's single centralized platform not only offers ERP capabilities, but also allows you to choose from Enterprise Asset Management and Service Management capabilities, too. You can support, manage and visualize the entire service and asset lifecycles effectively while having control of your ERP related processes.

By listening to feedback and fully focusing on the needs of our users, capabilities in IFS Cloud have been designed with one responsive, people-first UI, making it simple and easy to use across all parts of your business.

Innovation embedded as standard

Affordably embed the latest technology ready to use in your operations. Use advanced analytics and reporting, augmented and mixed reality, artificial intelligence, and machine learning to optimize, automate, predict and interact better across your business processes. With ERP in IFS Cloud leverage embedded innovation to save time, lower costs and improve overall business efficiency.

Composability: It is not an all or nothing approach

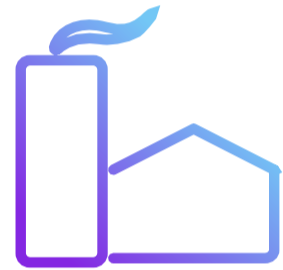

ERP in IFS Cloud is a completely composable solution. It lets you pick and choose capabilities to complement your existing technology stack to support functional areas as your business requires and evolves. Manage Manufacturing, Projects, Supply Chain, Finance, HR, Procurement, CRM and Commerce to help ensure the business stays on track, all within your ERP solution in IFS Cloud.

Made for your industry

With IFS as your partner, you benefit from decades of experience: a solution that is recognized by industry analysts, built from the ground up using industry know-how. Access industry focused solutions such as providing manufacturers with multi-mode capabilities or enabling construction companies to seamlessly switch to on-site and modular construction methods.

"IFS recognizes that deep industry knowledge is key to its customers' success, and multiple references cited its expertise as critical in the selection process."

"IDC MarketScape Worldwide SaaS and Cloud-Enabled Manufacturing ERP Applications 2022 Vendor Assessment," By: Mickey North-Rizza and Reid Paquin, May 2022, IDC # US49047922

Extensive product and support services

IFS focuses on delivering added value services, including support and consulting through a business value framework called 'IFS Success'. It's delivered by IFS Global Customer Services, and an ecosystem of over 500+ highly trained and carefully selected partners. From every corner of the organization, we work closely with customers to develop and implement solutions allowing businesses to perform at their best in their Moment of Service™.

Designed to support growth for global organizations

ERP in IFS Cloud has been designed to meet the complex demands of enterprises with growing operations globally. No matter the size, geographies your business operates in, business units, lines of business or how many companies your organizations own, ERP in IFS Cloud is the technology backbone that can drive your organization towards its strategic goals.

Customers' choice

IFS was named 'ERP Vendor of the Year' at the 2022 ERP Today Awards.

IFS Cloud is one of the highest rated solutions in the Cloud ERP for Product Centric Enterprises category on Gartner Peer Insights in the last 12 months: – [check what your peers have said about us](#).
