

# IFS IoT BUSINESS CONNECTOR

GET ACTIONABLE INFORMATION FROM RAW SENSOR DATA

**Digital Transformation** is about making your operations more efficient at lower cost and allowing you to expand your offering. For this, you need insights you can act on. **But how?** Analyze your data and spot where the value lies.

## WHAT DOES THE FUTURE OF DATA LOOK LIKE?

75%

BY 2020

\$1.5 trillion

75% of large and midsize companies will have spent **US \$1.5 trillion** on IoT solutions. IFS has invested in solutions that help you operationalize your data and increase ROI.

How much do you plan to spend?

## HOW TO CONNECT YOUR BUSINESS

IoT is increasingly connecting assets, factories and goods. Exploit this connectivity to extract valuable 'nuggets' of information, allowing you to transform your business.
