

# 9 THINGS ABOUT IFS APPLICATIONS™ 9

Here are **9** things in IFS Applications 9 that help you turn change into a business advantage.

## 1 IFS LOBBY

**IFS Lobby** is the welcoming place you go to before delving deeper into IFS Applications. You get an at-a-glance view of your business, in your role or particular processes. Best of all, lobbies come out of the box, and are easy to configure and create to better keep up with your changing roles and business processes.

## 2 LAYERED APPLICATION ARCHITECTURE

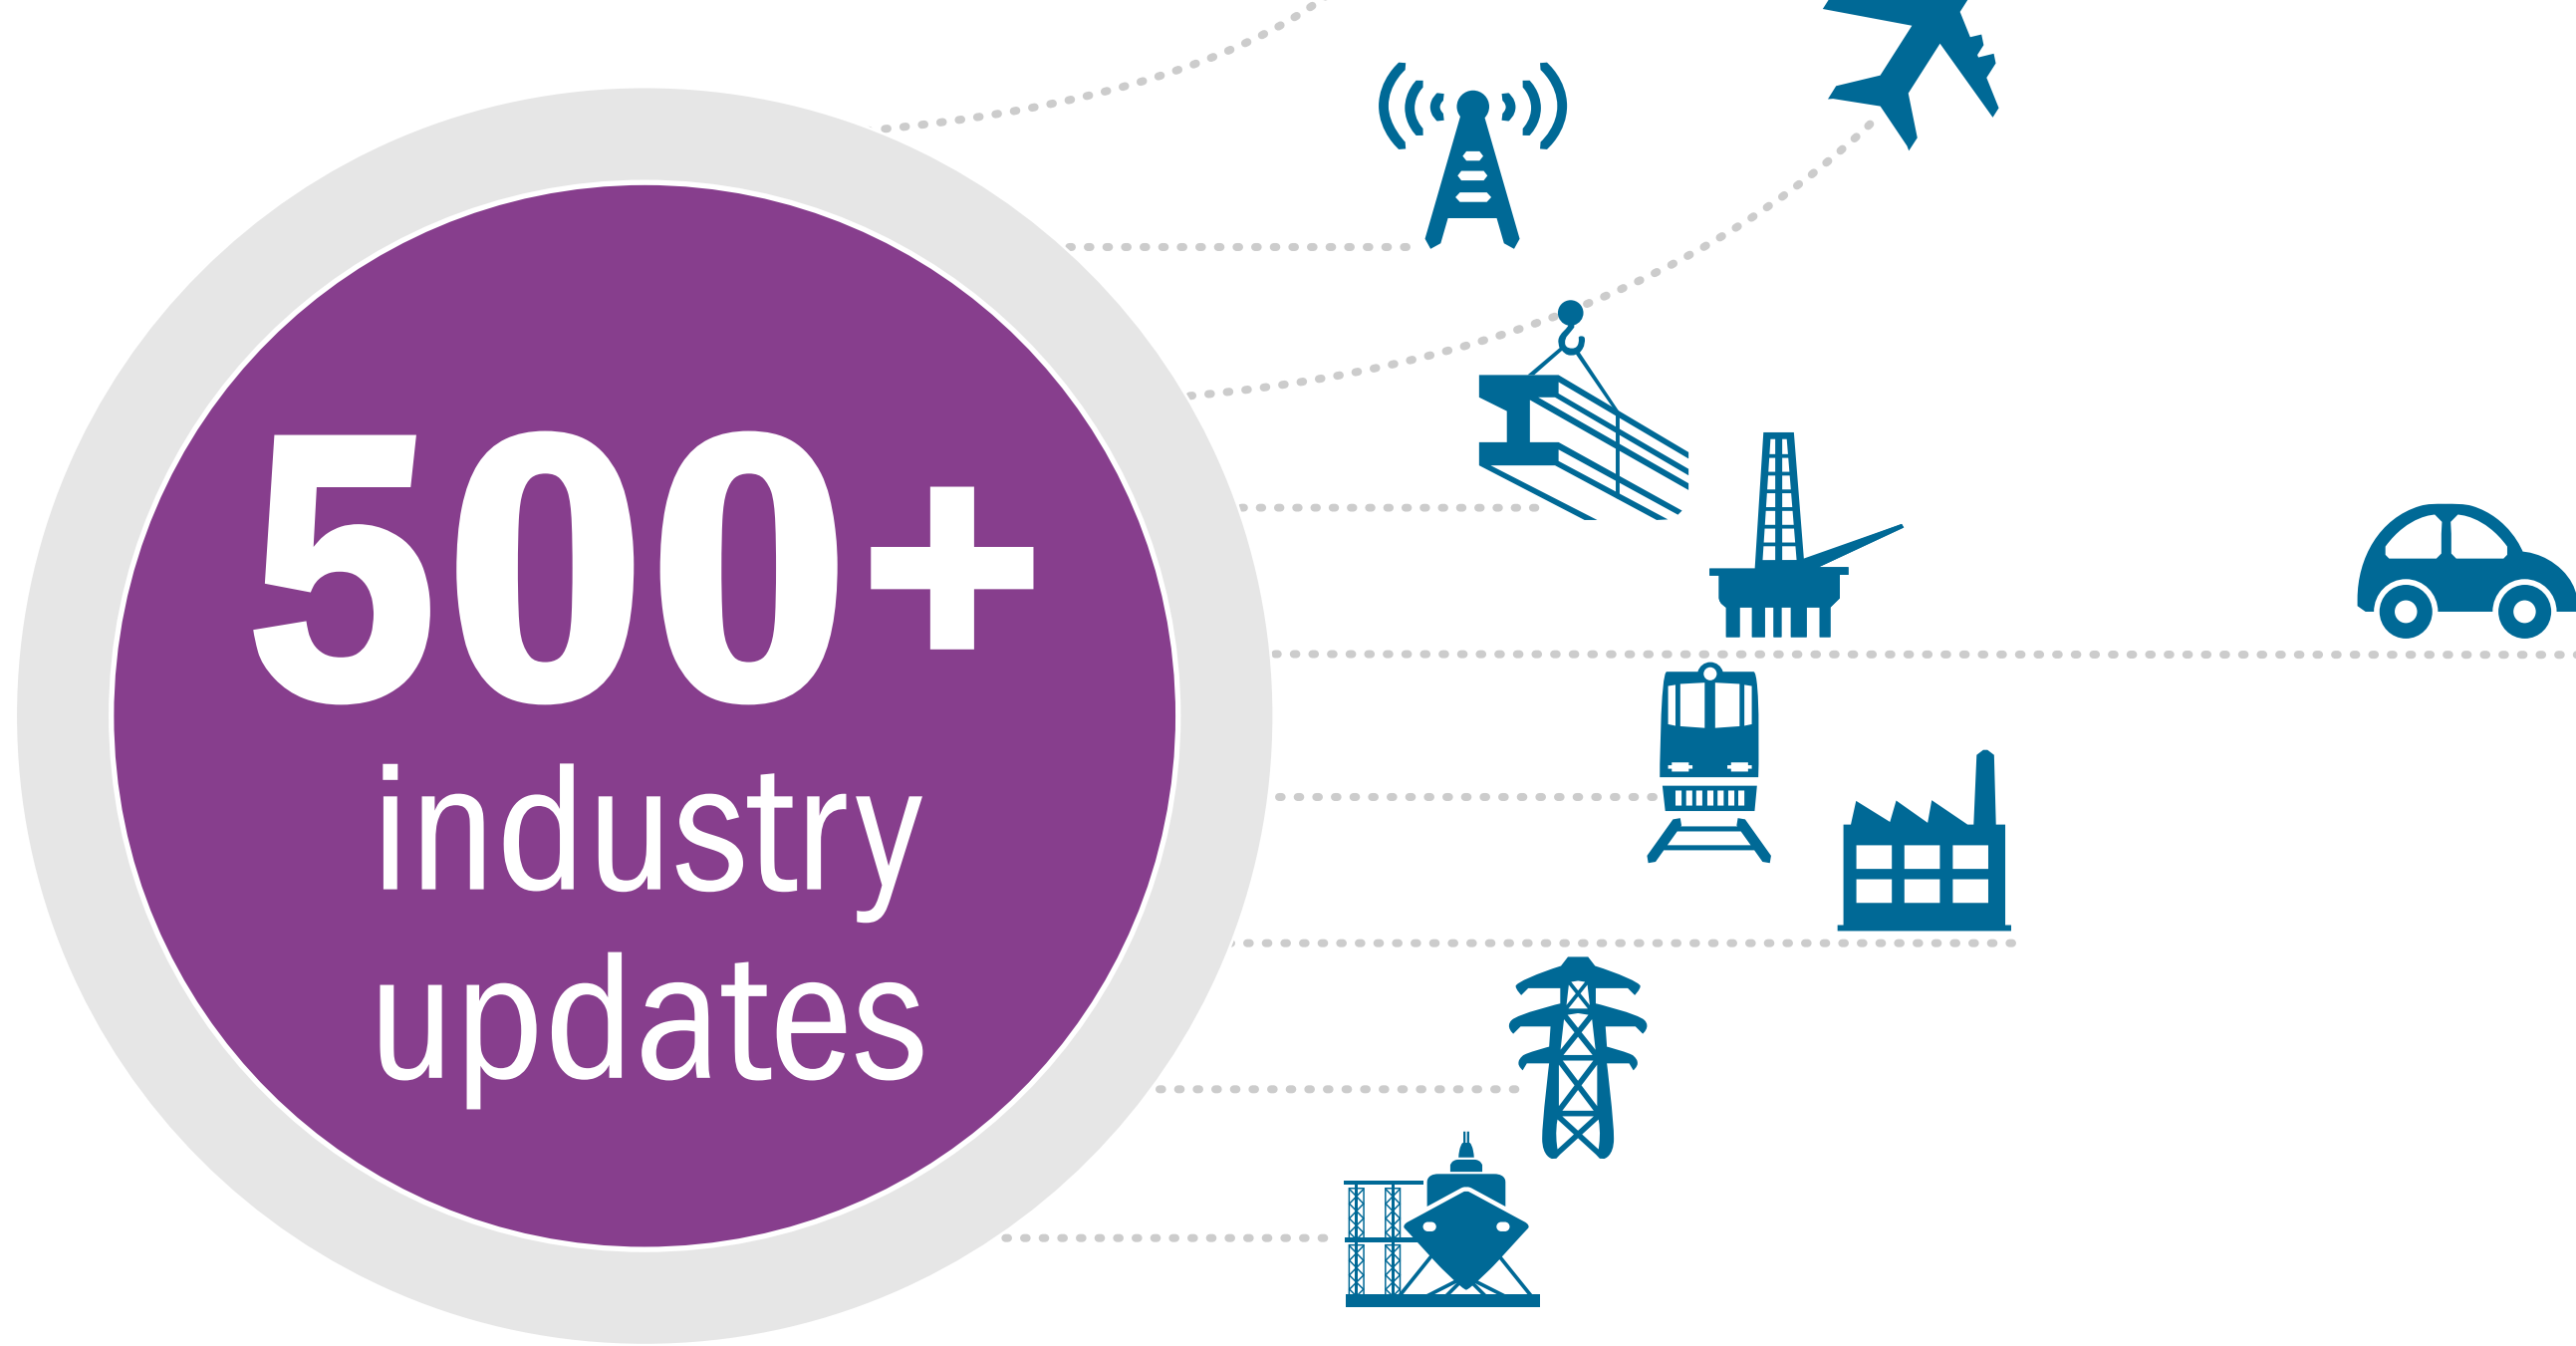

In one of the biggest changes to IFS Applications' architecture, we have added special layers for extensions, localizations and modifications. This drives cost out of any modifications you choose to make to IFS Applications' source code, makes it easier and cost efficient to upgrade, and increases cloud readiness.

## 3 HUNDREDS OF INDUSTRY UPDATES

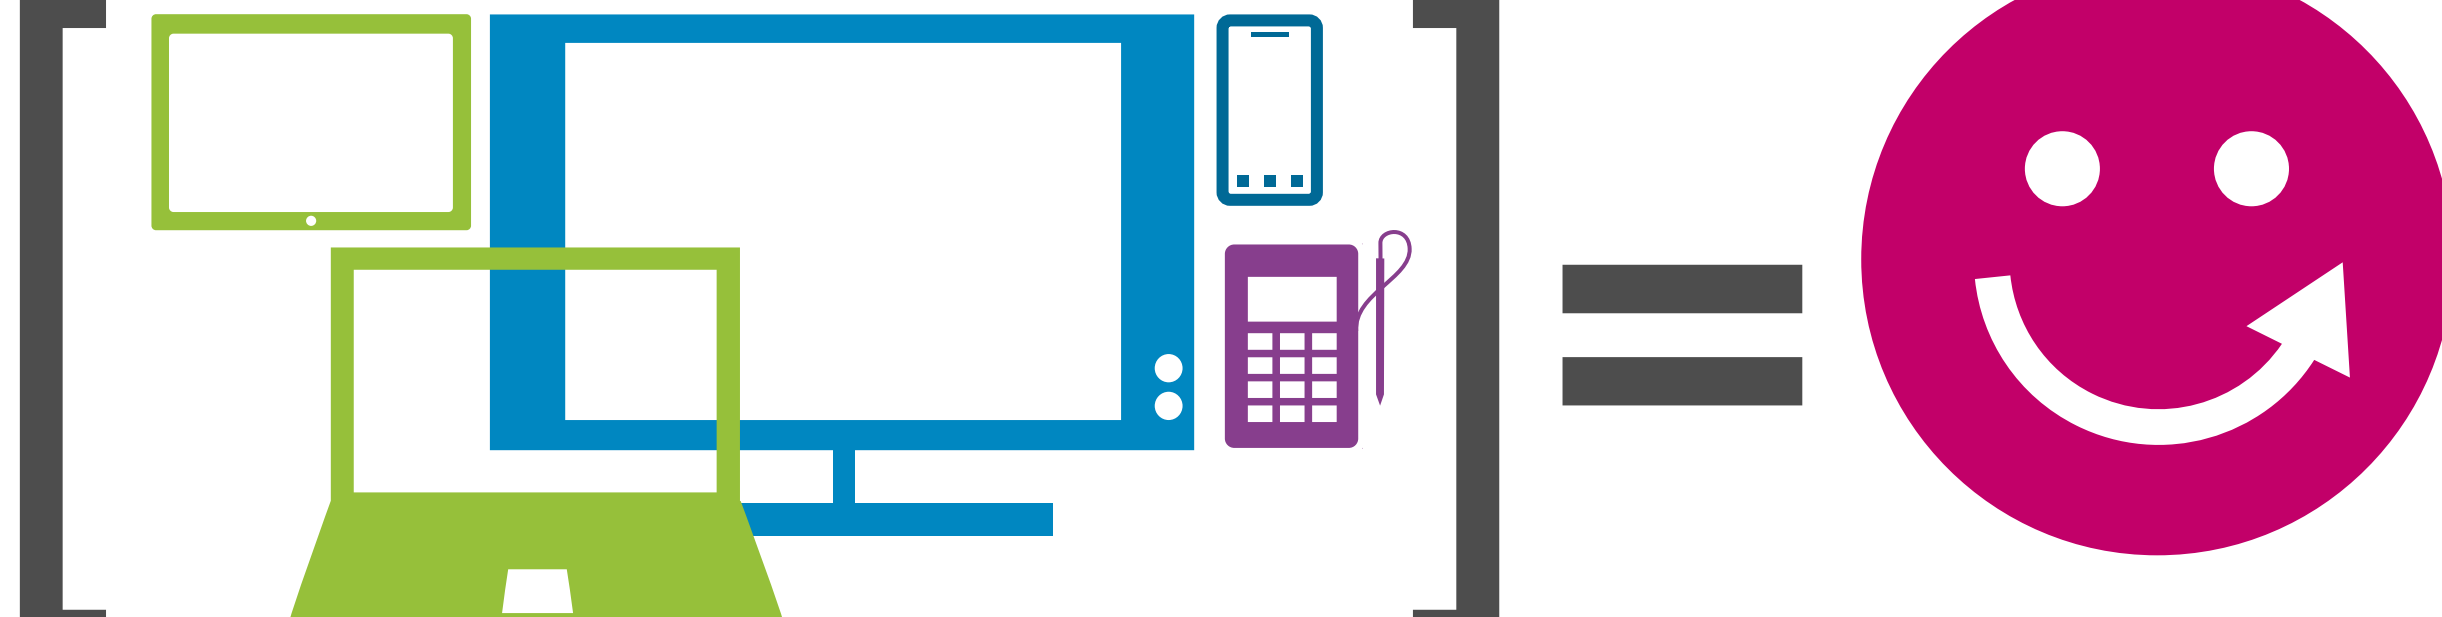

IFS Applications has earned analyst and market recognition for **ERP, EAM** and **service management** for challenging industries including **aerospace and defense, manufacturing, oil and gas, services and more.**

IFS Applications 9 includes 500+ updates for these and other industries!

## 4 USABILITY INNOVATIONS

Benefit from enhanced usability including improved tablet/touch support, consolidated information streams, simplified search and more.

## 5 UNPRECEDENTED CONFIGURATION

With IFS Applications 9, you get unprecedented capabilities to tailor the application to your business without resorting to modifications. You can add fields, objects, and relationships. Create and tailor the forms, including field rules and behavior.

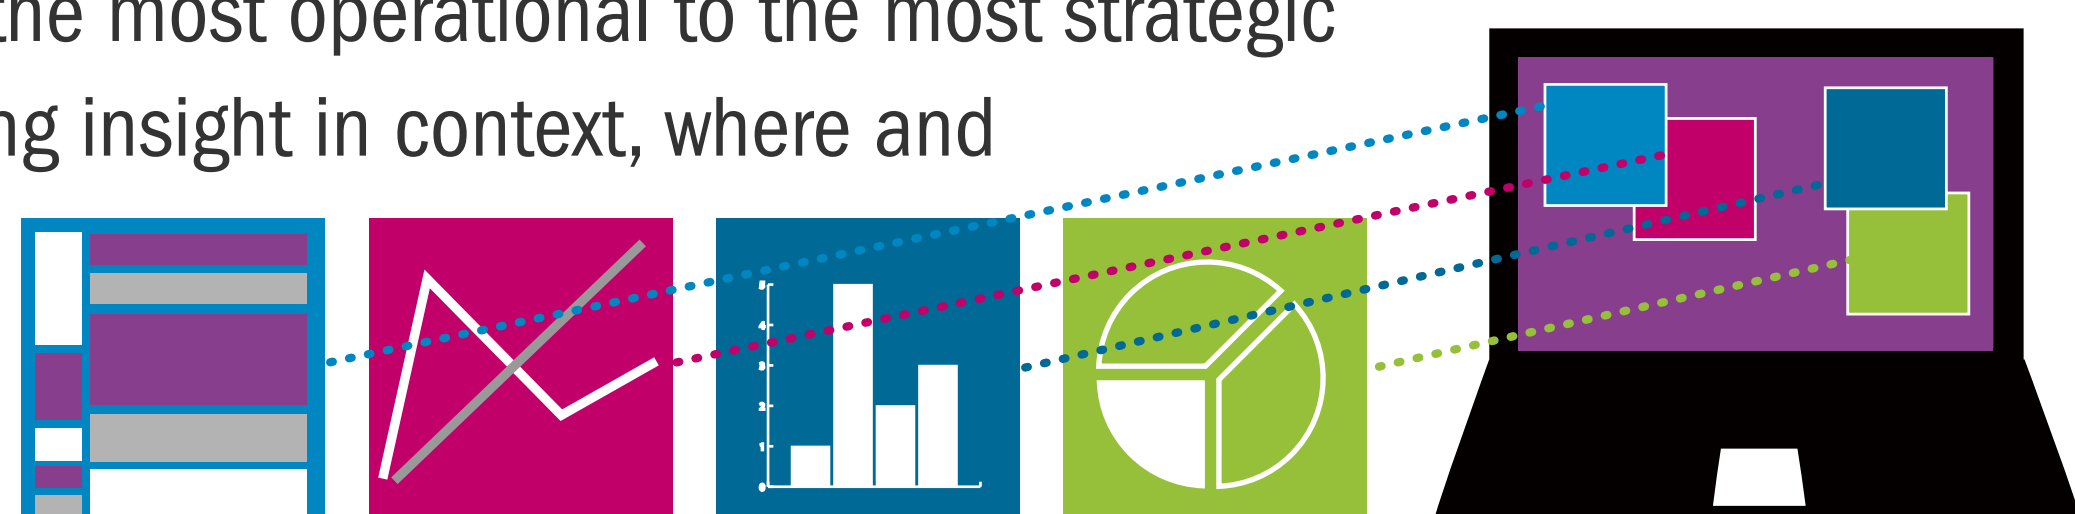

## 6 IN THE CLOUD

Between investments in IFS Applications 9 that make it more suitable for cloud—including the layered architecture—and IFS Managed Cloud on Microsoft Azure, **IFS Applications 9** puts you in an even better position to move to the cloud.

## 7 VISUAL INSIGHT

In IFS Applications 9, we bring together solutions that visualize information to support understanding, execution, and decision making from the most operational to the most strategic tasks, providing insight in context, where and when it is needed.

## 8 EMBEDDED CRM

IFS has long had tight integration between its CRM functionality and the rest of IFS Applications. With IFS Applications 9, we see truly embedded CRM, eliminating duplication of data and providing bi-directional visibility of back-office data in CRM processes and CRM data in back-office processes.

## 9 GLOBAL BUSINESS

Do you run multiple divisions or in multiple countries? IFS Applications 9 offers new operational group consolidation, improved support for matrix organizations and a host of other improvements for global businesses.

**9 ways IFS Applications drives agility further into your business than ever before, so you are ready for whatever the future brings!**
